U.S. Fish and Wildlife Service

FISH HEALTH INSPECTION REPORT

This report is **NOT** evidence of future disease status. To determine current status, contact inspecting biologist below.

Name of Fish Source	Address or Location of Fish Source	Name of Owner ☐ or Manager ☐	Inspection Dates	Classification
			This	
			Prior	

FISH EXAMINED

Species[1]	Lot Number	Age[2]	Number in Lot	Obtained as Eggs(E) or Fish(F) FROM:	BF	BR	BK	SW	VE	VH	VP	VC	A	B

Pathogens Inspected for and Results[3]

Type of Fish Examined

☐ Hatchery ☐ Feral

☐ Salmonid ☐ Non-salmonid

Type of Water Supply

☐ Spring ☐ Well

☐ Stream ☐ Impoundment

☐ Enclosed ☐ Free of fish

Inspecting Biologist Signature

Concurred (signature & title)

Inspecting Biologist Address

Remarks:

1 — Use standard FWS abbreviations (see back of this page).

2 — For hatchery fish give age in months: for feral fish use symbols e = eggs or fry; f = fingerlings; y = yearlings; b = older fish.

3 — See list of pathogen abbreviations on back of page; findings reported as $\frac{\text{number examined}}{\text{results}}$ where — = negative and + = positive; other pathogens listed in remarks.

Form 3-226(8/82)

SUPPLEMENTAL INSPECTION INFORMATION

Date	Species	Lot #	Findings

PATHOGEN ABBREVIATIONS

BF – Aeromonas salmonicida
BR – Enteric redmouth bacterium
BK – Salmonid kidney disease bacterium
SW – Myxosoma cerebralis
VE – Viral Hemorrhagic Septicemia Virus
VH – Infectious Hematopoetic Necrosis Virus
VP – Infectious Pancreatic Necrosis Virus
VC – Channel Catfish Virus

SPECIES ABBREVIATIONS

AMP	Amur Pike	LAT	Lake Trout
ARG	Arctic Grayling	LAY	Lampreys
ATS	Atlantic Salmon	LIR	Livebearers
